### 1. Introduction Team GSC

#### **Dr. Tobias Adamczyk, Director of GSC**

Tobias studied chemistry at LMU Munich 📖 and completed his doctorate at Heidelberg University. He has worked as an IT project manager 🖥️, as head of a semi-preparative laboratory 🧪, was a technology transfer manager, and is now director of the GSC. He has gained extensive experience in both science 🧬 and business 📁 and has also been active in start-ups.

#### **Marcin Bielecki, Technology Manager**

Marcin is a space sector professional with 15+ years of experience at the intersection of industrial policy, GNSS/EO innovation, and SME development 🚀. He has been deeply involved in ESA programs like NAVISP, GSTP, PECS, and BASS, and has helped SMEs engage with ESA through the Business Incubation Centre in BW 🇩🇪. As Head of Technology at the GSC, he drives space innovation locally and builds international partnerships 🤝, aiming to make the GSC a key tech hub for businesses in the region and beyond.

#### **Evelyn Schaible, Project Manager**

With a background in Aerospace Engineering 🚀, Evelyn lifted off her career as a development engineer, focusing on aviation electronics 🛩️. Holding a master's degree in Management & Innovation, she now bridges innovation 💡, sustainability 🌱, and space expertise, while bringing international experience 🌍 and a passion for future technologies to her role as Project Manager at the GSC.

#### **Vanessa Seibold, Project Manager**

Currently working full-time in family management 🏡❤️.
