# REVOLUTIONIZING IN-SPACE PROPULSION

Simple • Performant • Sustainable

## LET'S BUILD TOGETHER

### WHO WE ARE

We develop innovative and sustainable propulsion systems for satellites. With our proprietary, environmentally friendly propellant solution, we offer a combination of high performance, safety, and ease of use.

### OUR MISSION

We make access to space easier and safer by providing scalable, cost-efficient propulsion. Our proprietary propellant and streamlined system design reduce complexity while delivering robust performance.
